ENT207TC DIGITAL STARTUP LAB · WEEK 3

From sketch to prototype

Finalize your idea, take it through Visily, Figma and Pixso, and get ready for Checkpoint 1 and Draft 1 in Week 4.

Visily Figma Pixso

THIS WEEK'S GOAL

By the end of Week 3, every group has a finalized idea and a digital prototype in Pixso.

In Week 4 you present it at **Checkpoint 1** and submit **Draft 1**.

THE WORKFLOW

Four steps, one file handed along

01

Your idea

Finalize the problem, user, app and features

Agreed idea

02

Visily

Turn your sketches into digital screens

Export .vis

03

Figma

Import with the Visily plugin and edit

Export .fig

04

Pixso

Import the .fig and build your prototype

Prototype

The tutorial videos for each tool are on Learning Mall — watch them as you go.

STEP 1 OF 4

Finalize your project idea

Agree on one idea as a group before you open any tool. Everything you build this week rests on it — and the same answers become your Draft 1.

- The problem you will solve
- Who has the problem
- Your app, and how it solves the problem
- The features you chose

STEP 2 OF 4

Visily — sketches to screens

1. Finalize your group's Visily account — everyone in the group can log in
2. Add your sketches and turn them into digital screens
3. Export your design as a **.vis** file

TAKES IN

Your sketches

HANDS ON

.vis file

STEP 3 OF 4

Figma — edit and refine

1. In Figma, open the Visily add-on (plugin)
2. Import your **.vis** file through the add-on
3. Edit and clean up your screens
4. Export the design as a **.fig** file

TAKES IN

.vis file

HANDS ON

.fig file

STEP 4 OF 4

Pixso — build the prototype

1. Import your **.fig** file into Pixso
2. Build your digital prototype here — link your screens into a flow you can click through
3. This is the version you present at Checkpoint 1

TAKES IN

.fig file

DELIVERS

Digital prototype

ON LEARNING MALL · WATCH AS YOU WORK

Tutorials for each step

Step	Type	Link
2 · Visily	Video	youtube.com/watch?v=9K97iPJTlSA
Visily → Figma	Short	youtube.com/shorts/d1fYjMJ_7yk
Visily → Figma	Video	youtube.com/watch?v=sBzrfXkixvA
3 · Figma	Video	youtube.com/watch?v=iyrEStiTZh0
4 · Pixso	Guide	pixso.net/tips/figma-dev-mode-alternative-guide
4 · Pixso	Video	youtube.com/watch?v=KLZZY2F7-k0

Keep the tutorial open while you work in that tool and follow it step by step.

WEEK 4 · PRESENT

Checkpoint 1

01

Your finalized idea

The problem, who has it, and your app

02

Your digital prototype

Built in Pixso, from your Visily and Figma screens

Finish by the end of Week 3 Be ready to present in Week 4 · [format and time per group]

WEEK 4 · SUBMIT · [DAY, TIME]

Draft 1 — start preparing now

01

The problem

What it is, who has it, and why it matters — backed by a bit of research

02

The solution

Your app concept, and how it solves the problem

03

The features

The features you chose, each one described and documented

Keep it short: a bit of research and straight explanations. No padding.

BEFORE WEEK 4

Your end-of-week checklist

- Project idea finalized
- Group Visily account working
- Visily .vis → Figma .fig → Pixso, done
- Prototype ready to present at Checkpoint 1
- Draft 1 in progress: problem, solution, features
